Site-Specific protein labelling

Modified Histones

Ubiquitylated peptides

Product Information

Product Name:	h-Fractalkine CX3CL1
Synonyms:	CX3CL1 human; Neurotactin
Swiss Prot Accession No:	P78423
Sequence:	Pyr-HHGVTKCNI TCSKMTSKIP VALLIHYQQN QASCGKRAII LETRQHRLFC ADPKEQWVKD AMQHLDLRQAA ALTRNG
Modifications:	None

Specification

HPLC Purity: >95% area/area at 214nm**Determined Mass:** 8.6 kDa**Formulation / Appearance:** White powder lyophilized from water/acetonitrile/ TFA to generate the TFA salt form.

Peptide content determined by UV analysis at 280nm.

Preparation and Storage

Reconstitution / Storage: It is recommended that unopened vials are stored at -20 °C to -70 °C for periods of up to 18 months. Avoid repeat freeze-thaw cycles.

It is recommended vials be centrifuged prior to opening.

Water can be used to prepare stock solutions of 20 µmol.L-1. Stock solutions with up to 30% DMSO/water can also be prepared.

Not fully tested. For research use only. Not for use in human diagnostic or therapeutic procedures.
