Product Information

Product Name:	h-PARC CCL18
Synonyms:	CCL18 human, Pulmonary and Activation-Regulated Chemokine
Swiss Prot Accession No.:	P55774
Sequence:	AQVGTNKELC CLVYTSWQIP QKFIVDYSET SPQCPKPGVI LLTKRGRQIC ADPNKKWVQK YISDLKLNA
Modifications:	None

Specification

HPLC Purity:	>95% area/area at 214nm
Determined Mass:	7.8 kDa
Formulation / Appearance:	White powder lyophilized from water/acetonitrile/ TFA to generate the TFA salt form. Peptide content determined by UV analysis at 280nm.

Preparation and Storage

Reconstitution / Storage: It is recommended that unopened vials are stored at -20 °C to -70 °C for periods of up to 18 months. Avoid repeat freeze-thaw cycles.

It is recommended vials be centrifuged prior to opening.

Water can be used to prepare stock solutions of 20 $\mu\text{mol.L}^{-1}$. Stock solutions with up to 30% DMSO/water can also be prepared.

Not fully tested. For research use only. Not for use in human diagnostic or therapeutic procedures.
